Office of the President

Proposed

Standing Committees’ Structure

2014-2015
STANDING COMMITTEES AND COLLEGE GOVERNANCE

Definition
The standing committees are the major college committees established to deliberate and make policy recommendations in their assigned areas of interest or concern. The recommendations are forwarded to the College Council for action by the Council. College Council makes recommendations to the President.

Composition
The college adheres to AB1725’s directive regarding faculty, staff and students being involved in the shared governance process. College-wide standing committees typically are made up of faculty members, college administrators, representatives of classified staff and representatives of the associated students (ASCOA).

Operational Guidelines

1. Faculty members are appointed by the Academic Senate President to represent the faculty as a whole, and often, more specifically, an instructional or student services area, in accordance with Senate policies.

2. The President of the College appoints administrators and/or other presidential designees, as appropriate to the various committees.

3. The classified representatives are appointed by the Classified Council President, as indicated by interest in serving by classified staff members.

4. The President of the Associated Students will appoint student members to the appropriate committees, in accordance with ASCOA policies.

5. Committee chairs are elected by the committees and are responsible for presenting committee recommendations and concerns to the College Council for official action. They are not, however, expected to serve as regular members of the College Council.

6. Committee operational procedures are determined by the majority vote of the committee.

7. Terms of office of committee members will be staggered every two years and determined by the constituency with the possibility of reappointment annually by the appropriate constituent leader.

8. Committee may appoint an ad hoc subcommittee to address a specific purpose, function or activity. Subcommittee members may not necessarily be committee members but are appointed by the constituency by nature of knowledge or expertise of the topic to be dealt with.
