**Actionable Improvement Plans- 2015**

**IB.3**

The College will expand institutional research capacity to strengthen qualitative and quantitative data analysis to inform decision making and prioritization processes.

To provide additional benchmarks and assessment tools to measure progress towards achieving goals and objectives a comprehensive student and faculty/staff satisfaction survey will be developed and administered on a systematic cycle.

**IB.6**

Following the College and District Strategic Planning model, the College will continue the Educational Master Plan reflection and revision cycle in 2015.

**IIA.1b**

In order to exceed Institutional Set Standards on student achievement and retention, the College will identify online and hybrid student success strategies and provide workshops to faculty and staff.

**IIA.2e**

To continuously improve and integrate strategic planning, the College will complete the revision, begun in Fall 2014, of the program review and annual program update processes and forms.

To further align District-wide and College strategic planning to student learning outcomes assessment results, the College will complete the revision of the current SLO assessments system to enhance the linkage between student learning outcomes assessment, program planning, resource allocation and future planning needs.

**IIIB.1**

To facilitate continuous improvement, in collaboration with District General Services Department of Risk Management, a risk management assessment will be conducted of College facilities with recommendations to the College Facilities or College Health & Safety Committees. Recommendations will inform the College Maintenance and Repairs Priority Needs List.
The Peralta Community College District (PCCD) Function Map is intended to illustrate how the four colleges and the district office manage the distribution of responsibility by function. It is based on the Policy and Procedures for the Evaluation of Institutions In Multi-College/Multi-Unit Districts or Systems of ACCJC/WASC.

It was produced as the result of a collaborative process among the four colleges of the District, Berkeley City College, College of Alameda, Laney College, Merritt College, and the Peralta Community College District Office.

The Function Map includes indicators that depict the level and type of responsibility as follows:

**P** = Primary Responsibility: Primary responsibility indicates leadership and oversight of a given function which may include design, development, implementation and successful integration.

**S** = Secondary Responsibility: Secondary responsibility indicates support of a given function which may include feedback, input and communication to assist with successful integration.

**SH** = Shared Responsibility: Shared responsibility indicates that the District and the College are equally responsible for the leadership and oversight of a given function which may include design, development, implementation, and facilitation of input, feedback and communication for successful integration.

**N/A** = Responsibility Not Applicable: In cases where neither the District nor the College has such responsibility, for example, Standard II. A. 8, concerning offering courses in foreign locations.

## B. IMPROVING INSTITUTIONAL EFFECTIVENESS
The institution demonstrates a conscious effort to produce and support student learning, measures that learning, assesses how well learning is occurring, and makes changes to improve student learning. The institution also organizes its key processes and allocates its resources to effectively support student learning. The institution demonstrates its effectiveness by providing 1) evidence of the achievement of student learning outcomes and 2) evidence of institution and program performance. The institution uses ongoing and systematic evaluation and planning to refine its key processes and improve student learning.

**Standard II: Student Learning Programs and Services**

The institution offers high-quality instructional programs, student support services, and library support services that facilitate and demonstrate the achievement of stated student learning outcomes. The institution provides an environment that supports learning, enhances student understanding and appreciation of diversity, and encourages personal and civic responsibility as well as intellectual, aesthetic, and personal development for all of its students.

**A. INSTRUCTIONAL PROGRAMS**

The institution offers high-quality instructional programs in recognized and emerging fields of study that culminate in identified student outcomes leading to degrees, certificates, employment, or transfer to other higher education institutions or programs consistent with its mission. Instructional programs are systematically assessed in order to assure currency, improve teaching and learning strategies, and achieve stated student learning outcomes. The provisions of this standard are broadly applicable to all instructional activities offered in the name of the institution.

C. LIBRARY AND LEARNING SUPPORT SERVICES

Library and other learning support services for students are sufficient to support the institution’s instructional programs and intellectual, aesthetic, and cultural activities in whatever format and wherever they are offered. Such services include library services and collections, tutoring, learning centers, computer laboratories, and learning technology development and training. The institution provides access and training to students so that library and other learning support services may be used effectively and efficiently. The institution systematically assesses these services using student learning outcomes, faculty input, and other appropriate measures in order to improve the effectiveness of the services.

Standard III: Resources

The institution effectively uses its human, physical, technology, and financial resources to achieve its broad educational purposes, including stated student learning outcomes, and to improve institutional effectiveness. Accredited colleges in multi-college systems may be organized such that responsibility for resources, allocation of resources and planning rests with the system. In such cases, the system is responsible for meeting standards on behalf of the accredited colleges.

A. HUMAN RESOURCES

The institution employs qualified personnel to support student learning programs and services wherever offered and by whatever means delivered, and to improve institutional effectiveness. Personnel are treated equitably, are evaluated regularly and systematically, and are provided opportunities for professional development. Consistent with its mission, the institution demonstrates its commitment to the significant educational role played by persons of diverse backgrounds by making positive efforts to encourage such diversity. Human resource planning is integrated with institutional planning.

other reports, team visits, and prior approval of substantive changes. The institution moves expeditiously to respond to recommendations made by the Commission.

5. The role of leadership and the institution’s governance and decision-making structures and processes are regularly evaluated to assure their integrity and effectiveness. The institution widely communicates the results of these evaluations and uses them as the basis for improvement.

### B. BOARD AND ADMINISTRATIVE ORGANIZATION

In addition to the leadership of individuals and constituencies, institutions recognize the designated responsibilities of the governing board for setting policies and of the chief administrator for the effective operation of the institution. Multi-college districts/systems clearly define the organizational roles of the district/system and the colleges.

h. The governing board has a code of ethics that includes a clearly defined policy for dealing with behavior that violates its code.  

i. The governing board is informed about and involved in the accreditation process.  

j. The governing board has the responsibility for selecting and evaluating the district/system chief administrator (most often known as the chancellor) in a multi-college district/system or the college chief administrator (most often known as the president) in the case of a single college. The governing board delegates full responsibility and authority to him/her to implement and administer board policies without board interference and holds him/her accountable for the operation of the district/system or college, respectively. In multi-college districts/systems, the governing board establishes a clearly defined policy for selecting and evaluating the presidents of the colleges.  

2. The president has primary responsibility for the quality of the institution he/she leads. He/she provides effective leadership in planning, organizing, budgeting, selecting and developing personnel, and assessing institutional effectiveness.  

   a. The president plans, oversees, and evaluates an administrative structure organized and staffed to reflect the institution's purposes, size, and complexity. He/she delegates authority to administrators and others consistent with their responsibilities, as appropriate.  

   b. The president guides institutional improvement of the teaching and learning environment by the following:  
      • establishing a collegial process that sets values, goals, and priorities;  
      • ensuring that evaluation and planning rely on high quality research and analysis on external and internal conditions;  
      • ensuring that educational planning is integrated with resource planning and distribution to achieve student learning outcomes; and  
      • establishing procedures to evaluate overall institutional planning and implementation efforts.  

   c. The president assures the implementation of statutes, regulations, and governing board policies and assures that institutional practices are consistent with institutional mission and policies.  

   d. The president effectively controls budget and expenditures.  

   e. The president works and communicates effectively with the communities served by the institution.  

---

3. In multi-college districts or systems, the district/system provides primary leadership in setting and communicating expectations of educational excellence and integrity throughout the district/system and assures support for the effective operation of the colleges. It establishes clearly defined roles of authority and responsibility between the colleges and the district/system and acts as the liaison between the colleges and the governing board.
