Math Biography

Due in-class Wednesday, 9/2/15 @ 3:00 pm

Tell me what math you’ve taken, when you took Calculus II, if you’ve taken Calculus III before, and what scares you most about this class. Also please tell me if you plan to take additional math and/or physics, chemistry, or other science classes. Finally, tell me if you’re planning to transfer, when, if you’ve got your eye on any schools in particular, what type of major you’re interested in, etc.

Either type or print a response and bring this with you to class on Wednesday –or– email this to me before class begins on Wednesday. Be thoughtful in your response, and be sure to write at least 1 paragraph.
