

Creating a Practice Exam Directions:

- 1) ***Gather the Packets that are covered on the next exam.***
(Example: Packet 1 – Packet 4)

- 2) ***Write sample problems from each Packet (on the left side of the page)***

- 3) ***Write the answers to each problem.***

Now you have your practice exam and you can practice this exam as many times as you need until you understand all the problems and concepts. YAY! 😊

What to do after your practice exam is created:

- 1) ***Take the exam***
 - i) *Give yourself the same time and same rules as we have in class*
- 2) ***Correct the exam***
 - i) *Mark correct answers with a "C".*
 - ii) *Mark incorrect answers with an "X"*
- 3) ***Go over incorrect answers***
 - i) *Go back to notes & look at similar examples*
 - ii) *Do similar examples from Homework*
- 4) ***Repeat (1) – (3) until you get 100%. 😊***
